Blega, Bangkalan, Jawa Timur

Full Stack Developer with 2+ years of hands-on experience building and maintaining web applications using PHP, Laravel, Next.js, TypeScript, React.js, Node.js, and Python. Experienced in end-to-end software development, API and third-party integrations, web scraping, AI-integrated solutions, database management, deployment, and production maintenance. Also experienced in developing data-driven solutions for social media analytics and implementing technical SEO practices.

Technical Skills

- **Programming Languages:** PHP, Typescript/Javascript, Python.
- **Frameworks & Runtime:** Laravel, Next.js, React.js, Node.js, Adonis.js, Express.js
- **Databases:** MySQL, PostgreSQL, SQLite
- **Development & Deployment:** CI/CD, Git, Linux/Ubuntu, Server Deployment, Server Maintenance
- **Others:** REST APIs, Web Scraping, Data Processing, Social Media APIs, Google Search Console, Technical SEO, On-Page SEO

Work Experience

PT. Wahana Global Imedia - Surabaya, Jawa Timur Sept 2025 – Sept 2026

- Worked as a Full Stack Web Developer handling legacy PHP (Vanilla PHP & Laravel) and modern applications built with Next.js and TypeScript. Responsible for end-to-end development, including system planning and architecture, feature development, debugging, performance optimization, deployment, server maintenance, and production stability.
- Developed and integrated APIs, third-party services, AI technologies, and web scraping solutions for automated data collection and processing, including social media statistics from Instagram, Facebook, YouTube, TikTok, and X. Applied AI-driven practices throughout the software development lifecycle while implementing SEO best practices and monitoring website health and indexing through Google Search Console.

PT. Lasbon Technology Indonesia (Internship) - Surabaya, Jawa Timur Sept 2024 - Jan 2025

- Developed a Python-based system to extract WhatsApp chat and media data from Android devices, including messages, files, images, videos, and metadata.
- Automated data processing and conversion from SQLite to MySQL to structure extracted datasets for further analysis.
- Built a Node.js/AdonisJS web interface to present and manage processed WhatsApp data.
- Integrated ADB-based automated extraction workflows using Ubuntu and implemented an end-to-end pipeline from data acquisition and extraction to database processing and web presentation.

PT. Surabaya Autocomp Indonesia (Internship) - Kab. Mojokerto, Jawa Timur Jan 2024 - Jun 2024

- Designed and developed a warehouse rack visualization system using Laravel and MySQL, including dynamic layouts for columns, racks, and material stacks.
- Implemented real-time visualization logic to accurately reflect warehouse structures and user inputs.
- Built an inventory control module that transformed unstructured Excel data into structured summaries, charts, tables, and exportable reports.
- Improved inventory monitoring and documentation through a web-based workflow integrated with warehouse operations.

Projects

- **Social Media Analytics Platform** – Python + PHP +MySQL + Social Media API's
- **Cooperative System** – React.js + Inertia.js + Laravel + MySQL
- **WhatsApp Data Forensic Web Platform** – Adonis.js + Python + SQLite + MySQL
- **Event Management System (Simeva)** – Laravel + MySQL + Laravel Excel & Laravel Spatie

Certifications

- **Computer Software Programmer** (BNSP)
- **Copyright of Computer Program – Simeva** (Kementerian Hukum Republik Indonesia)

Education

State Polytechnic of Malang - Malang, Jawa Timur 2021 - 2025

Diploma IV Informatics Engineering, 3.86/4.00

- Participate in a Scientific Writing Competition with the title "Confidentiality of Data" (National Youth Competition 2021 - FIA Brawijaya University) and become the layout team and manage the SNGBR 2022 paper

Organization Experience

Himpunan Mahasiswa Teknologi Informasi (HMTI) - State Polytechnic of Malang Feb 2023 - Feb 2024

General Chairman - Steering Committee

- Led and managed HMTI with 50+ members, overseeing operations, strategic decisions, and departmental communication while designing and executing organizational strategies, programs, and major events.
- Achieved 95.28% of the General Chair Vision & Mission KPI and 93.46% of the Management Period KPI.
